

NSTT 2016 – Post Event Report

Congratulations from APTI

Congratulations from Asia Professional Training Institute (APTI) to all the qualified NS/NLP trainers who made the 2016 Neuro-Semantics Trainer's Training (NSTT) a successful and memorable one! Growing significance of Neuro-Semantics across the globe, the event in Hong Kong has been a fruitful journey, with the support of the NS community, we gained skills for life and met friends for life.

New Batch of Elite Trainers

Big thank you to all of you who took part in NSTT. Total 39 fellows from 8 countries flown all the way to Hong Kong to join us, all driven with enthusiasm and determination in leading human transformation. On 12th October 2016, this batch of elite trainers have graduated from Hong Kong who worked their dedication in Neuro-Semantics/NLP from mind to muscle. During the 15-day intensive camp training, it brought laughter and tears that led participants to self-actualization, and developed a mutual support within the Neuro-Semantics community.

Dedication to Quality

"Personal power and congruency comes from "applying to self" first". Under the lead of Dr. Michael Hall, together with co-trainers Mandy Chai, David Murphy, Germaine Rediger, Sandra Aveleira Viljoen and Marzuki Mohamed, and team leaders Wilkie Choi and Eric Cheung in this 15-days journey, participants strived their best in training their mind and body. Every graduate has been through extensive drills and assessments on concepts and presentation skills, with the precious feedback from master trainers and mutual support among teammates, everyone has demonstrated competence in all eight areas (i.e. content, engagement, use of voice, demonstration, etc.). Michael, the world leading master trainer, have enhanced everyone's knowledge and skills to the next level of quality and professionalism. At the final days of NSTT, every graduate went through benchmarking on their delivery of training content. We are proud to witness transformation to a professional trainer, from timid to confident, from self-critical to appreciative, from individuals to oneness.

The Growing NSTT family

Neuro-Semantic Trainers Training is more than quality training. This year, we are very lucky to have well-experienced NS trainers come all the way from Mexico, Belgium, Fiji, Malaysia and Macau to Hong Kong to share their business intelligence with our graduates, to tutor and provide guidance, even shared on stage what challenges they have been through and strategies in overcoming these challenges, and what make them who they are today. We have been connected as a part of Neuro-Semantics community because we are dedicated to facilitate human transformation.

Mastery of Training

“Perfection is not attainable, but if we chase perfection, we can catch excellence.”
Congratulations to our co-trainers Mandy Chai, David Murphy, Germaine Rediger, Sandra Aveleira Viljoen and Marzuki Mohamed who have achieved excellence and taken mastery of their training skills in reaching their excellence to a higher level. Yet, we, Neuro-Semantics trainers, will not stop at this moment, we are committed to continuously improve our quality of training, always in search of excellence.

After 15 days’ journey, NSTT concluded on the 12th evening with a graduation ceremony. Michael, together with the master trainers and team leaders commissioned all Neuro-Semantics graduates to step up, and lead a change in people’s life, help people along the way of self-actualization.

Moving Forward

Coming next in November 2016 is the three-days **Unleashing Leadership** by Dr. Michael Hall; followed by is the three-days **Group and Team Coaching** in December 2016, also led by Michael.

For all of you who have been asking, the next **Associated Certified Coaching Mastery (ACMC)** will be led by Dr. Michael Hall and Mandy Chai as co-trainer. The certification course will take place in Hong Kong on 8-15 January 2017. For those who look for efficiency and effectiveness, registration is now open at the sponsor — APTI (Hong Kong). If you are interested in taking your coaching skills to mastery level, please approach APTI (Hong Kong) at +852 2770 8886 or send us an email at info@apti.com.hk for details.
